The European University alliance proposal

101089476 — EULiST — European Universities Linking Society and Technology

submitted under the Erasmus+ call

ERASMUS-EDU-2022-EUR-UNIV-2 — European Universities – Development of new deep institutional transnational cooperation

Following evaluation involving an international panel of independent experts,

was recognised as a high quality* proposal in a highly competitive evaluation process

but could not receive funding due to budgetary constraints and is therefore recommended by the European Commission for funding by other sources.

This proposal for a new European University alliance has the potential to deepen the institutional cooperation between the involved higher education institutions and to actively contribute to the realisation of the European Education Area by 2025, in synergy with the European Research Area. The proposal has the potential to mobilise where appropriate the four missions of higher education institutions (education, research, innovation and service to society), to promote common European values, to strengthen European identity, and to enhance the quality, performance, attractiveness and international competitiveness of European higher education sector.

Mariya Gabriel
European Commissioner for Innovation, Research, Culture, Education and Youth

Brussels, 28 July 2022

* The proposal scored above 80 points in the evaluation process.
